
TOWNLEY HI-PERFORMANCE CYCLONES

- **DURABLE** - All components of Townley cyclones are lined with Towniprene. This lightweight and long-lasting wear material has replaced ceramic, rubber, and cast alloy construction in most applications.
- **EFFICIENT** - The super-slick, friction-free surface of Towniprene facilitates flow, improving cyclone efficiency.

EASY TO ASSEMBLE & MAINTAIN

Consider these time-saving features:

- Replaceable Towniprene Vortex Finder
- Lightweight Fabricated Steel Retaining Jacket supports Townley's patented one-piece Towniprene cone. The jacket is not subject to wear and will give many years of service.
- One-piece, drop-in style cone section, constructed of solid reinforced Towniprene, is lightweight and easy to install.

NO HEAVY EQUIPMENT NEEDED!!

- Replaceable Towniprene apex - available in many sizes for precise separation adjustment.

- **SIZES FROM 4" THRU 48" •**
With 14°, 20° & 30° CONES
- **WATER-ONLY CONES 12", 15" & 24"**

**COMPLETE TOWNLEY CYCLONE
INSTALLATION
CYCLONES • HOSE • PIPING • VALVES**

**FOR COMPLETE CYCLONE SYSTEM
COMPONENTS, SPECIFY TOWNLEY...**

- Cyclones
- Rubber 180-degree Overflows
- Full Flow-Through Valves
- Headers, Laterals, Spools & Reducers
