

Engineering & Manufacturing Co., Inc.

Submersible Pump-motor Protection Fault Box

NEW

Protect your investment !

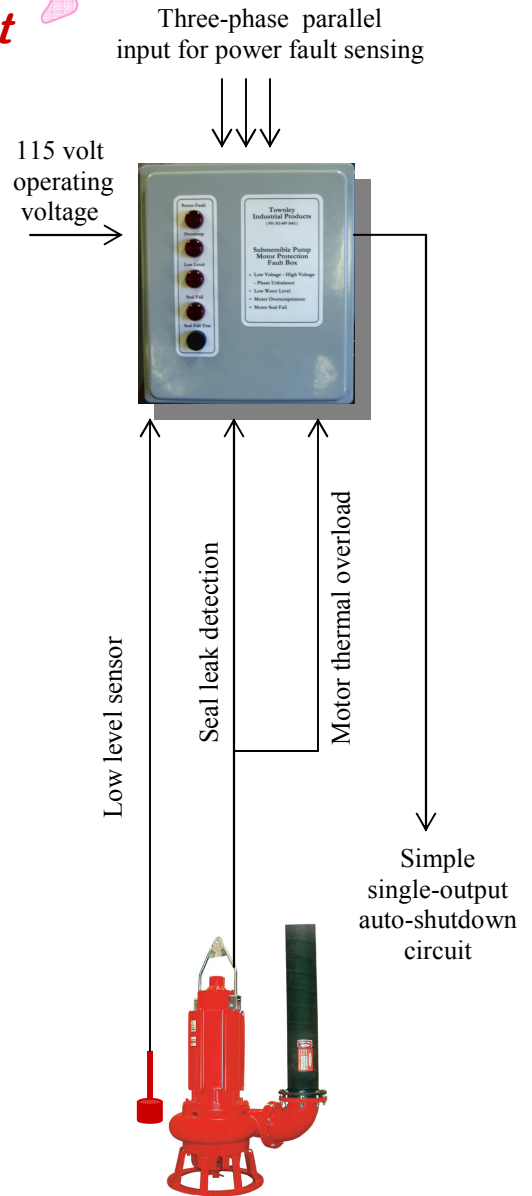

For a fraction of the pump cost

Features:

-  **Power Fault**
 - High or low voltage
 - Phase imbalance
 - Phase reversal
 - Loss of phase
-  **Over Temperature (motor)**
-  **Low level (sump)**
-  **Leak detection (seal)**

Any of these conditions encountered will induce "auto-shutdown" of power to the motor-starter auxiliary circuit

Call for more information on this easy to install option for MSP and GSP Submersible pump models
