PUMPS
PUMP APPLICATION QUESTIONS

Date:	Prepared by:
-------	--------------

Section 1: Customer Information

Customer:	Country:	State / Province:
Site:	Phone:	Fax:
Contact:	Email:	

Section 2: Service Information

Industry:	Pump type (existing):	Service type / circuit:
-----------	-----------------------	-------------------------

Comments:

Section 3: Transported Media

Operating temp range:	pH:	% solids:	Avg. particle size (d50):	Max. particle size:	Operating pressure:
-----------------------	-----	-----------	---------------------------	---------------------	---------------------

Comments:

Section 4: Pump Requirements

TDH (Head):	Volume GPM:
-------------	-------------

Comments:

Section 5: Connections and Other Data

Suction port:	Discharge port:	RPM:	Power available (submersible):
---------------	-----------------	------	--------------------------------

Existing pump (model, brand, size):	Wetted materials:
-------------------------------------	-------------------

Comments:

Section 6: Additional Information

Quantity requested:	Other features requested:
---------------------	---------------------------

Reason(s) for replacement:	Expectations:
----------------------------	---------------

Comments:
