## RUBBER PRODUCT

### SERIES 8000 CONNECTOR

#### Series 8000 Extra-Heavy-Duty Flexible Connectors

Designed and manufactured with a natural rubber, neoprene or chlorobutyl continuous weartube layer, these heavy-duty connectors withstand abrasive and corrosive slurries in suction or discharge service, wherever traditional rigid joints are used.

- Steel spring wire and fabric reinforcement
- Integrated nipples
- Not affected by thermal excursions
- Solid arch dampens pump vibration
- Available up to 150 PSI
- Available in concentric, eccentric and off-set designs
- Can replace rigid pipe in many applications
- Available with reducing dimensions
- 2" to 84" ID
- Face to face up to 24"
- Rotating or Victaulic style flanges available
- Continuous wear tube terminates on flange face
- Easily seals misaligned connections
- SBR cover assures durability
- Abrasion and corrosion-resistant

Great for abrasive or corrosive media found in chemical, mineral beneficiation and coal fired power plant use.

*Replaces rigid connectors to relieve torsional or rotational damage to fixed equipment.*

*Match misalignment in older facilities.*

*Reduce in-plant noise.*

Call or e-mail us, and an experienced Townley Technical Sales Representative will work with you to specify the right connectors and options for your application.
