

TOWNIPRENE WEAR PRODUCTS

Towniprene®

When it comes to upgrading troublesome wear-parts, Townley was the first commercial supplier of specially formulated industrial grade urethane used to replace rubber linings and metal process-parts. With excellent abrasion and corrosion resistant properties, many customers rely on Townley to provide the same high quality castings day in and day for the most severe service found in mining and power plant processing with abrasive slurries.

Starting with “state of the art” CNC machined patterns followed by unique molding and casting techniques, we produce parts with the consistent fit and finish you expect.

Towniprene® is available in a variety of colors and physical properties to match your application. Over the last forty years, we have prepared hundreds of patterns and what we don't have can be custom built to your specifications.

Perfect application for:

- In-plant and field use
- Aggregate separation
- Slurry movement
- Sand classification
- Tailings

Typical customers include:

- Coal prep plants,
- Sand mining and dredging
- Phosphate tailings
- Clay
- Ore prep

Call or email us and an experienced Townley Technical Representative will work with you to specify the right elastomer for your application

TOWNIPRENE WEAR PRODUCTS

URETHANE PARTS

- Pipe spacer Gaskets
- Pipe spacer Wedges
- Nozzles
- Log teeth
- Hydrocyclones
- Elbows Spiral classifiers
- Overflows
- Pulley lagging
- Bird filter Wheels
- Conveyer wheels
- Pug mill paddles
- Pipe intake, suction bells
- Pipe inserts
- Flex couplings
- Belt conveyer rollers
- Dart Valves
- Mixing propellers
- Flingers & slingers
- Pinch tubes
- Flat stock

Townley can create precision castings designed for your application. With the ability to select the resiliency and chemical resistance, we can produce the right replacement part for your application.

- ✓ Precision auto mixer /dispenser
- ✓ Auto CAD design, replication and CNC pattern machining
- ✓ Controlled curing cycles
- ✓ Chemical and mechanical testing of end-product capability
- ✓ Knowledgeable chemists and design personnel
- ✓ Forty years if practical experience
